

Why would your doctor recommend CCM®?

- Sometimes, when your heart doesn't function effectively, physicians recommend an Optimizer® Smart Mini to improve the pumping action of your heart.
- Improved pumping action has been linked with an improved quality of life for heart failure patients.
- Enhanced pumping action has led to an improvement in how your heart failure is classified (i.e., NYHA Class).

How do I know whether CCM® therapy is right for me?

- For heart failure patients categorized as NYHA Class III and for whom medications are no longer working to alleviate symptoms, physicians may prescribe CCM® therapy.
- You and your healthcare providers should discuss your options. Additionally, you may want to share the information in this guide with family members or friends.

What benefit can I get from CCM[®] therapy?

For most patients who receive it, **CCM[®]** improves their quality of life.

Before CCM[®]

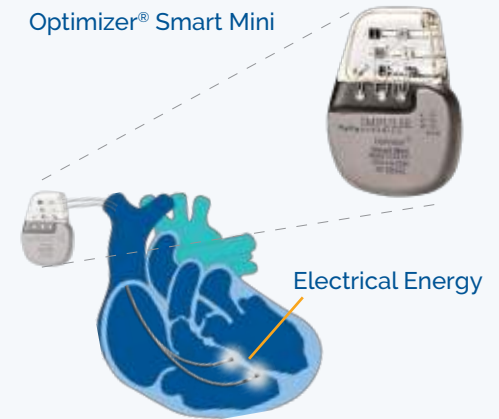

After CCM[®]

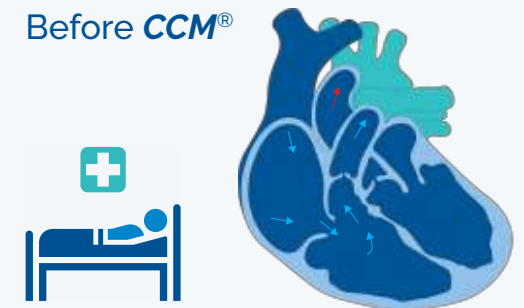

In other words,
“Feel Better, Live Better”

What is CCM[®]?

Optimizer[®] Smart Mini

Before CCM[®]

After CCM[®]
